

**Graduation
Commencement
July 11 at 7:00 p.m.**

GRADUATION UPDATE INFO

The type of Commencement Ceremony will depend on

restrictions and recommendations from the Governor's office and the Indiana Department of Education.

Three options will be developed for Commencement to prepare for various levels of restrictions. The options are listed from least restrictive to most restrictive. The option chosen and the specifics will be determined by restrictions in place on July 11, 2020.

If group gatherings over 250 persons with social distancing are allowed...

Outside, on the football field, with social distancing between graduates on the field and guests in the stands. The number of guests would be limited to allow for implementation of CDC social distancing guidelines.

If group gatherings are not allowed but parking at school is permitted...

In the parking lot with graduates and guests in cars. Graduates will drive by to pick up diplomas or possibly walk from cars one at a time to receive their diplomas. Guests could be restricted to cars while graduates are seated in front with proper social distancing. The number of cars would be limited.

If the original restrictions are in place...

Virtual Graduation. The format and location of a virtual graduation are yet to be determined.
